Experience

Frontend Engineer II

Optiphoenix, New Delhi | June 2024 - Present

- Orchestrated 400+ A/B tests across 50+ enterprise clients, including major e-commerce, ticketing, and automotive websites with 100,000+ daily users
- Achieved conversion rate improvements of 25% on average, with several tests exceeding 10% improvement for high-traffic pages
- Led end-to-end client development work, ensuring consistent delivery of optimization solutions across large-scale websites
- Developed reusable testing frameworks that reduced implementation time while maintaining quality across diverse industry requirements
- Mentored junior developers in A/B testing methodologies and frontend optimization techniques

Jr. Frontend Engineer

Optiphoenix, New Delhi | March 2023 - June 2024

- Implemented responsive designs and contributed to A/B testing initiatives for major e-commerce clients
- Collaborated with UI/UX teams to prototype and test user-centered designs

Frontend Engineer Intern

Optiphoenix, New Delhi | August 2022 - March 2023

- Assisted in frontend development and A/B testing projects
- Gained hands-on experience with enterprise-level optimization tools
- Supported development workflows and testing documentation

Projects

TaskMaster Plus

<https://taskmasterplus.netlify.app/>

- Built a JIRA-like task management system with drag-and-drop functionality using React.js, Redux Toolkit, and React Beautiful DND
- Implemented responsive Kanban boards with dynamic column management and real-time state updates
- Technologies used: React.js, Redux Toolkit, Tailwind CSS, JavaScript ES6+

Summary

Results-driven Frontend Developer with expertise in A/B testing and web development. Demonstrated success in improving conversion rates and user experience through data-driven development approaches. Skilled in modern frontend technologies and frameworks with a track record of delivering high-quality solutions.
